INVESTING NOW TO SECURE TOMORROW'S TALENT SUCCESSION

Mining is a vital industry to a constantly changing and advancing world. Canada's future, as an industry leader, depends on investing in talent succession. The CMIEF scholarship allows students to focus on their studies and benefit from the opportunities the mining industry has to offer. By encouraging our students to pursue rewarding careers in the mining industry, we will ensure Canada is ready to deliver on future market demand and global economic growth.

CMIEF was created to support and encourage today's students to become tomorrow's mining leaders – ensuring innovation, growth and talent succession in our industry.

The Canadian Mineral Industry Education Foundation (CMIEF) provides SCHOLARSHIPS to undergraduate students enrolled in mining, geology, and metallurgical studies at all Canadian Universities.

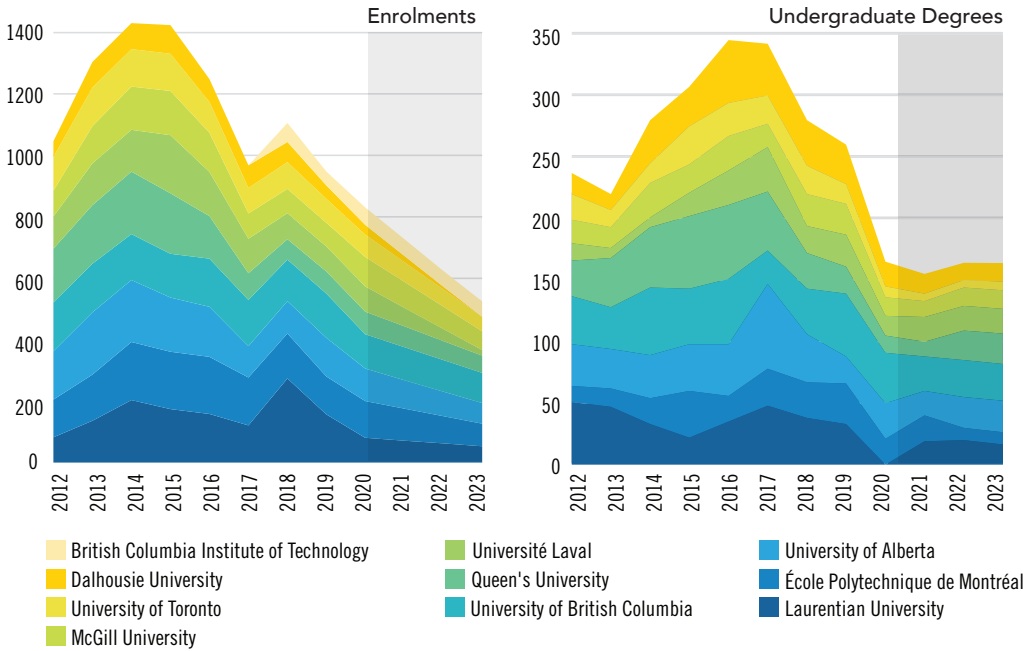

I would like to thank the foundation for their continuous support throughout my degree. Your support has lessened the financial burden of my courses. I am incredibly grateful to have been one of the recipients!

– KEIRA HEINBIGNER, 2022 RECIPIENT

MINING ENGINEERING PROGRAMS ARE SHRINKING

Undergraduate Enrolments and Degrees Awarded in Mining or Mineral Engineering (2012 to 2023)

*Forecast from 2021 onwards assumes present trends continue

Participating Universities

- Acadia University
- University of Alberta
- Brandon University
- University of British Columbia
- BCIT
- University of Calgary
- Carleton University
- Dalhousie University
- Lakehead University
- Laurentian University
- Université Laval
- University of Manitoba
- McGill University
- McMaster University
- Memorial University of Newfoundland
- University of New Brunswick
- University of Ottawa
- École Polytechnique de Montréal
- Queens University
- University of Saskatchewan
- Université de Sherbrooke
- University of Toronto
- Université du Québec à Montréal
- Université du Québec à Chicoutimi
- University of Waterloo
- Western University

CMIEF is a nonprofit foundation that has been offering scholarships since 1964 to undergraduate students with an interest in mining, geology and metallurgy. Financial support for the foundation comes from those involved directly and indirectly in the mining industry, corporations and individuals. Our mission is to support and incentivize university students interested in the rewarding careers that the mining industry has to offer.

For several years, CMIEF has been awarding renewable scholarships of \$1,000 per academic term. Recognizing the continually increasing costs associated with education, it is overdue to adjust our scholarship to better reflect the current reality of educational expenses. Our GOAL of raising \$750,000 will empower the Foundation to increase both the scholarship amount and the number of recipients.
